

Community Advisory Council

Facilitator:

Rick Sroufe brings a wealth of knowledge and experience to the Pensacola Mill's Community Advisory Council from his 30-year tenure at Air Products.

The former EHS manager for the Pace plant, Rick was responsible for managing and directing environmental, health and safety activities, environmental compliance activities including wastewater treatment, stormwater management, wetland permitting, groundwater remediation, hazardous waste disposal, asbestos abatement, emergency response, health, safety, and governmental and public relations.

In addition, Rick provided environmental leadership for all Florida sites, including gas facilities, cogeneration plants, and chemical manufacturing facilities.
