

Our Commitment

At the International Paper (IP) Pensacola Mill, an important measure of success is our reputation as a responsible neighbor, employer and environmental steward, and for that reason we remain dedicated to making continuous improvement.

The IP Corporate Environment, Health, and Safety Policy serves as the foundation for the Pensacola Mill policy and contains the following key provisions:

- Protection of the environment is an essential and integral part of our overall business strategy.
- One-hundred percent compliance with all environmental laws, regulations, and permits is required.
- Pollution prevention and continual environmental improvement is emphasized.
- Facility-specific environmental goals and objectives are required.

Additionally, the Pensacola Mill has adopted the following provisions in support of the corporate policy:

- Environmental excellence is consistent with our other key operating principles with respect to safety, reliability, efficiency, and customer acceptance.
- All employees will be engaged and have the right training, materials, and equipment to achieve environmental excellence.
- Active participation is necessary to obtain sound environmental policy, laws, regulations, and permit requirements.
